

Making security easier for you

## NetVision XS 4 Camera System

(Standard and Industrial)

- Affordable, single product solution for digital video recording
- Up to 30 fps video capture rates
- Compact design
- Non proprietary compression codecs
- Fully integrates into MONITOR ISM Director V4.0
- 2 versions; Standard and Industrial
- Reliable, easy to use MS Windows 2000 based system
- Fully addressable by LAN/WAN/dial-up and TCP/IP

**NetVision™** is a remote digital video surveillance capture and reporting system accessible by LAN/WAN/Dial up and Internet.

### Capture Station

The NetVision™ Capture Station is a pre-configured, ready to use Digital Surveillance Recorder that is similar to a digital VCR with enhanced functionality. Recording can be either continuous or event driven. Recording events can be triggered via motion detection, scheduling or input points.

### Remote Surveillance Station

The NetVision™ Surveillance Station allows you to remotely configure the capture station, manage and download video clips using any PC with access to the capture station from anywhere in the world by the provided surveillance station software.

STANDARD

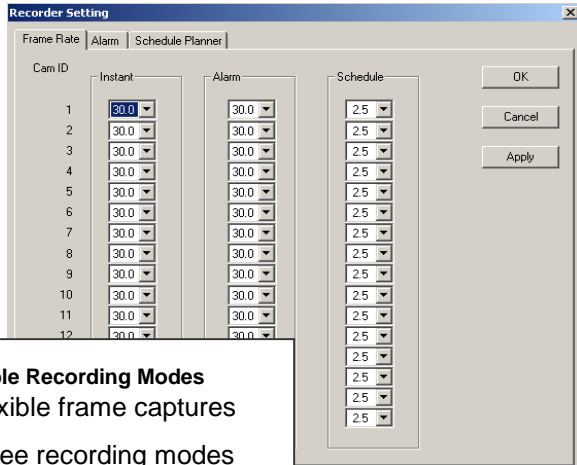

INDUSTRIAL
